Re: FINAL DEACTIVATION OF DC-DC BMP ROHS-5 parts

Dear Valued Customer,

As part of our product lifecycle management process, Bel Power Solutions & Protection provides notification when a product has reached End-Of-Life (EOL) status. EOL decisions are based on our review of material availability, historical unit shipment volume and product revenue performance.

In addition, engineering support for these products, including bug fixes of any kind and integration of bug fixes, will end by 31st December 2018 after which the product will be moved to Inactive lifecycle. After this date, Bel Power Solutions & Protection's technical assistance will be limited only to providing migration advice to those customers who migrate to the replacement products.

If you have any questions about this end of life notification, please contact your local Bel Power Solutions representative or email Tech.Support@psbel.com.

We would also like to take this opportunity to thank you for your business in the past and to assure you that everything we do is aimed at becoming your power supply partner of choice in the future.

Sincerely,

Dara G Crowe

Product Manager, Power Solutions

Bel Power Solutions
